Venturing Resident Camp Programs

## 2019

## Venturing Advancement Camp

### At Camp Bowman

As Goshen's longer running Venturing program, Venturing Advancement Camp offers opportunities for many of the Venturing Awards.

The program is operated in a standard resident camp style. For the most part, each day has the same set of activities with some special events. Requirements are covered by staff in class and in specially arranged sessions and also by the Crew's leadership in the campsite.

This program is available all summer long. We recommend at least two consecutive weeks to get the most out of your summer.

### Ranger Award

All 8 of the Core Requirements and 8 of the Electives are offered here at Camp Bowman. Choose your adventure!

### Venturer to Summit

Camp Bowman has lots of resources for those working toward their Summit award. Not only is Goshen a Tier III activity, but it offers lots of training opportunities for youth and adults and classes in the full gamut of outdoor activities.

**Polish your skills, advance toward awards, and have fun in the outdoors!**

### At Camp Marriott

Marriott's Ranger Experience program focuses solely on the Ranger Award.

The program allows Crews to build their own program based on the interests of their members. The Ranger Experience program plan includes different activities each day. Most program plans will include a multi-day overnight experience in the beautiful surrounding forests and mountains at Goshen Scout Reservation.

This program is available Weeks 1 - 5.

Combine different topics to create your own experience. Learn about the sport of fishing and try to catch fish from Lake Merriweather, go boating and have fun with watercraft, learn about the natural world, and more!

Learn advanced skills and help out the camp staff by teaching a skill or giving a presentation to the Scouts learning about the same topics in their Merit Badges.

And make sure to schedule in some time for some just for fun activities to hang out with your Crew!
